The World Youth Foundation (WYF) is a national non-profit organization founded in 1991, accelerating K-16 learner pathways to youth personal and professional development, STEAM education, entrepreneurial, and workforce skills development through immersive, costless out-of-school time learning & mentoring programs, and career apprenticeships. Our world-class learning and development programs are driven by a public-private partnership (PPP) model that focuses on empowering K-16 learners from every background with the skills needed to succeed in the next-generation digital economy.

Our mission is to **"Empower Every Youth to Win in Life Against All Odds."** We achieve our mission by educating, empowering, and exposing our youth to advanced opportunities that are not readily available within their schools, homes, or communities. In turn, our youth pay it forward by empowering their own families and communities with the new knowledge and skills acquired in the WYF program, creating a sustainable path to help close the education and wealth gap.

WYF Capability Empowerment

Early Career & Industry Skills Development	Civic Education & Political Engagement
STEM + Arts (STEAM) Workshops	Financial Literacy & Coaching
Pre-Apprenticeship Development (K-5)	Durable/Soft Skills Development
Apprenticeship Training & Development	Entrepreneurship Development
Leadership Development & Coaching	Mental Health & Wellness Programs
Design Thinking & Innovation Workshops	Physical Health & Wellness Programs
Personal Development Workshops	Community Engagement & Giving

Snapshot: Client & Partner Portfolio

Our youth nonprofit stands out due to its holistic approach to empowerment.

Beyond traditional education, we focus on metaskilling, equipping young minds with real-world skills alongside academic knowledge. **Our unique STEAM Innovation Industry Pathways (SIIP)** program bridges the gap between education and industry, fostering lifelong learning and early career development. We prioritize equitable access, reaching disinvested communities, and collaborating with industry leaders to ensure our youth are not only educated, but also empowered to excel in a rapidly changing world.
